January, 2018

Arnolia UMC began our search for a new copier a few years ago. Our church of 200 members was looking for color copies at a reasonable cost. The sales reps from three local companies came and gave presentations and quotes. Their prices were just too high for our limited budget. The decision was made to abandon the search for a new copier.

In the Fall of 2017, our aged copier was breaking down more and more often. Not being able to get parts for future repairs was going to become an issue. A new copier was again a topic of discussion.

We were blessed when Tom Kuhn of the Doceo Office Solutions suddenly appeared at Arnolia UMC with his company's copier program. Mr. Kuhn gave our administrative assistant and myself a thorough presentation of our options based on the printing needs of our congregation.

Doceo was the only company that has a special program for churches and nonprofits we had interviewed. Mr. Kuhn gave us materials to look over. He got back to us a few days later with a price quote. The cost for us was one we could easily handle in our budget. The decision to lease a copier from Doceo was completed quickly by our administrative committees.

The machine was delivered within a few days and the installation crew was very helpful. Excellent training on the machine and its many functions was provided. The company even sent out a trainer to help us with our first booklet we needed for a worship service a few months after purchase. Their service department responds quickly when needed, usually the same day.

We are more than pleased with our decision to work with Doceo Office Solutions and highly recommend them to anyone who needs an office copier.

Sincerely,

Rev. Mary Ellen Glorioso

Pastor
