#### **To Whom It May Concern:**

I enthusiastically and without reservation recommend Doceo Office Solutions. To a potential client looking for a provider of office technology services, I say look no further than Doceo Office Solutions.

The Byrnes Health Education Center had been a long-time client of Doceo until we made a change three years ago. Our team felt there was a better option, more attractive pricing, etc. Unfortunately for us, we realized we had made a wrong choice.

This past Fall we returned to Doceo Office Solutions. Mike Black made that transition as seamless as possible. Mike even took point on assisting the Center with facilitating the change out of equipment. Mike and his team provided stellar customer service.

We are a small non-profit with a big mission and we count on our vendors to provide outstanding customer service so that we don't miss a beat in delivering our health education mission. I know we can count on Doceo to keep us moving.

I wish you continuing success in your business and am confident that Doceo Office Solutions will be a supportive partner.

Sincerely,

Anne E. Bahn  
President/CEO
