

To Whom It May Concern,

It is with the highest regard that I recommend Doceo Office Solutions for your printing and copying needs. Our District made a large-scale transition to a centralized printing solution for our staff and students and with Doceo's help, the process was seamless. They demonstrated their knowledge and professionalism during the transition and have also maintained a high level of customer service with our organization for the past two years. They have provided our staff with excellent training, quick response times when there is a problem and have diligently maintained our copier fleet to ensure things run smoothly. I can honestly say I have heard nothing but positive feedback from the staff at Dallastown and know of several other Districts who echo these sentiments that made the decision to use their services. I would be happy to be a point of reference for you if you are considering Doceo for your organization.

Sincerely,

John Lenhart Jr.  
Systems & Network Support Specialist  
Dallastown Area School District
