

✝ *Faith-based support and services for individuals with autism and intellectual disabilities*

Doceo Office Solutions has been with our company from the very foundation almost 20 years ago. Doceo has been very instrumental in fashioning plans and recommending products to service our growing needs.

We have been very pleased with the new Toshiba copiers they have installed at our various locations that provide superior printing, folding, stapling and finishing. They have a state of the art website which makes ordering supplies or service requests a breeze.

Their service technicians are very friendly and respond in a timely manner and the office staff have always provided quality training on their equipment that is easy to understand. It has been a pleasure partnering with Doceo to meet our printing needs.
