

York County Economic Alliance

To Whom It May Concern:

The York County Economic Alliance, York County's Chamber of Commerce and Economic Development Organization, has utilized DOCEO Office Solutions as our supplier of printers and copiers for over a decade. We have always been extremely satisfied with our products, service and response time that we have experienced working with DOCEO.

We are an organization that requires many handouts and packets throughout the year. In the event a machine goes down, we can always rely on the DOCEO service team to fix it promptly, allowing us to meet our deadlines. DOCEO is always able to help us meet our needs when it comes to copiers and we appreciate our relationship with them.

As a member of the York County Economic Alliance, DOCEO is supportive of our efforts to build the York County business community and is a strong partner in the community overall. Just about all of DOCEO's employees are involved in either our organization or other community service organizations, and DOCEO's culture to continuously give back is much appreciated.

I would highly recommend DOCEO Office Solutions to any business looking for quality copiers and responsive service team.

Thank you for all that you do for our community and organization!

Sincerely,

Kevin Schreiber

President & CEO

York County Economic Alliance
