The Lamb of God School has been leasing copiers for over 25 years from a number of local service providers. Each time my 60-mos. lease approaches I gather quotes from 3-5 companies. This time around I received a call from Tom Kuhn with Doceo and included him in the bidding process.

There was no comparison! Doceo's pricing was significantly less than their competitors. We needed to replace our main copier as well as a back-up that we owned. We received both copiers (one new and one re-conditioned) at a lease price below what we were previously paying.

I have been extremely pleased with our decision to move to Doceo. From beginning to end, the process has been pleasant, seamless and without pressure. The delivery, set-up and training were excellent. They even disposed of our back-up and returned our leased machine at no additional cost.

Needless to say, I highly recommend Doceo Office Solutions for all of your printing needs. I won't be going anywhere else.
